Economics Faculty

Degree Course in Economics and Business Administration

The Degree Course

The Economics Faculty of the International Telematic University UNINETTUNO represents a winning distance teaching model, in which this University was a pioneer worldwide. Its educational offer is based on the highest standards of quality thanks to the collaboration with eminent professors of international fame. By means of the videolessons, complemented by multimedia didactic materials and virtual classrooms, the modules' content is deepened and students are constantly supported by professors and tutors in the successful completion of their paths of study. The Degree Course in Economics and Business Administration is aimed at providing students with appropriate methods and scientific knowledge related to business dynamics in order to train specialists who will be able to occupy executive positions in the companies, as well as to carry on free-lance professional activities in consulting firms and other organizations. Upon successful completion of the Course, the graduate will be able to communicate information and ideas to various company's stakeholders, as well as to solve business problems. The Course includes four pathways. Two of them have a general character and are related to business management in a wide sense (Economics and Corporate Governance; and Business Management), and other two pathways are more specific: the first one related to management of tourist enterprises (Culture, Tourism, Territory and Corporate Value), and the second one aimed at the study of the key financial aspects of management (Financial Management).
