

**Titolo del libro**

*Numerical Methods part II*

**Order number**

1105120244466

**Numero pagine**

452

**Insegnamento**

*Numerical Methods (in inglese)*

*Metodi Numerici per l'Ingegneria (in italiano)*

**Docente responsabile dell'insegnamento**

*Proff. Paolo Emilio Ricci, Clemente Cesarano*

**Curatore**

*Clemente Cesarano, Università Telematica Internazionale UNINETTUNO*

**Anno Edizione**

2012

**ISBN**

ISBN-13 9781121765344

ISBN-10 1121765343

**CAPITOLI**

- i Introduction: Instructor submitted material
- 1. Linear Algebraic Equations and Matrices: Chapter 8 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 2. Gauss Elimination: Chapter 9 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 3. LU Factorization: Chapter 10 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 4. Matrix Inverse and Condition: Chapter 11 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 5. Iterative Methods: Chapter 12 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 6. Eigenvalues: Chapter 13 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 7. Linear Regression: Chapter 14 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 8. General Linear Least-Squares and Nonlinear Regression: Chapter 15 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 9. Fourier Analysis: Chapter 16 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 10. Polynomial Interpolation: Chapter 17 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
- 11. Splines and Piecewise Interpolation: Chapter 18 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012

12. Numerical Integration Formulas: Chapter 19 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
13. Numerical Integration of Functions: Chapter 20 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
14. Numerical Differentiation: Chapter 21 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
15. Initial-Value Problems: Chapter 22 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
16. Adaptive Methods and Stiff Systems: Chapter 23 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
17. Boundary-Value Problems: Chapter 24 from Applied Numerical Methods with MATLAB® for Engineers and Scientists, Third Edition by Chapra, 2012
