UNIVERSITÀ TELEMATICA
INTERNAZIONALE UNINETTUNO

A.Y. 2025/2026

Call for
INTERNATIONAL ACADEMIC TUTORS
non-binding call for expressions of interest

International Telematic University UNINETTUNO

The **International Telematic University UNINETTUNO** was established by the Decree of 15 April 2005 by the Ministry of Education, University and Research and was born from the didactic model of the **NETTUNO Consortium**, a consortium of 41 Italian and 31 foreign public universities, and from the success of the European project **MedNet'U - Mediterranean Network of Universities**. Since 1992, hundreds of thousands of students have graduated at a distance via television and the Internet.

Today, some of these universities place at the disposal of UNINETTUNO physical facilities such as laboratories for research and didactic activities and classrooms for face-to-face exams.

UNINETTUNO is today the only Italian telematic university that has been positively evaluated by ANVUR - National Agency for the Evaluation of the University and Research System, with **prestigious lecturers and students coming from 170 countries worldwide**. A virtual space, but not only, for the global circulation of knowledge.

The University has always been based on a **forward-looking vision**, focused on continuous **innovation** and research, offering the **highest quality education** that is **accessible to everyone everywhere**. It focuses on an advanced psycho-pedagogical model that exploit the potential of available digital technologies and put the student at the centre of the educational process, integrating cognitive and connessionist theories, promoting active and dynamic learning. The approach goes beyond the mere transmission of technical knowledge; it aims to develop in students the ability to analyse, interpret and use information in a conscious manner.

Continuous research using advanced technologies to promote sustainable development and social inclusion, international collaborative networking, multilingual training for students of different nationalities.

The Call

UNINETTUNO was established with an international and multicultural vocation: to offer a quality university education accessible anywhere in the world, breaking down geographical and language barriers.

In order to strengthen this mission and make the educational offer even more global and inclusive, **the University is currently looking for academic tutors coming from different academic and cultural backgrounds**.

The aim is **to enrich the educational experience of international students, facilitate a deeper understanding of content** through linguistic and cultural affinity, and **promote an educational environment that is truly open to intercultural dialogue.**

Collaborating with professionals from around the world allows us to build a university that not only teaches, but also connects, inspires and innovates globally.

Purpose of the Call

The International Telematic University UNINETTUNO invites expressions of interest from qualified scholars and professionals for potential collaboration as academic tutors (docenti tutor) within its Faculties and Degree Programs.

This is a non-binding call, issued for the sole purpose of creating a list of suitable candidates who may be contacted and considered, if and when the need arises, to carry out academic tutoring and support activities in the University's online learning environment.

Submission of an expression of interest does not constitute a formal application, nor does it imply any commitment on the part of UNINETTUNO to establish a contractual relationship. The inclusion in the list does not guarantee any assignment of duties or remuneration.

Tasks:

The academic tutors will be responsible for:

- Coordinating the teaching activities of the course according to the UNINETTUNO coordinator of the course
- Carrying out online tutoring activities on the UNINETTUNO platform
- Search, create and upload didactic materials in the digital library of the UNINETTUNO platform (linked to single lessons)
- Conduct interactive classrooms via UNINETTUNO Interactive Class Systems
- Monitor and control students' activities on the platform
- Collaborate in the research activities of the Faculty of reference

Modalities of conducting activities:

The tutoring activities will be carried out in English entirely remotely and on the UNINETTUNO platform, in accordance with the psycho-pedagogical model of distance learning developed by UNINETTUNO Rector Prof. Maria Amata Garito.

Eligibility:

Candidates should hold at least a Master's Degree or equivalent qualification in a relevant discipline. Prior experience in university-level teaching or tutoring, especially in online or blended environments, will be considered an asset.

The selection will be carried out by the Faculty Councils concerned.

How to express interest:

Interested candidates are invited to submit:

- A detailed CV
- A brief statement of interest (max 1 page)
- Any relevant teaching certifications or references

Interested candidates must fill in the application form (***Annex 1***).

Documents should be sent via email to:

professor@uninettunouniversity.net

Deadline for submission: 30 July 2025.

Applicants may apply for one or more modules, or the whole thematic area.

Only candidates who do not currently have an academic and/or teaching collaboration relationship with UNINETTUNO can apply.

Further information:

UNINETTUNO will assess the submitted expressions of interest for future academic needs and reserves the right to contact only those candidates deemed suitable for possible collaboration.

For further information, please contact:

professor@uninettunouniversity.net

List of Thematic Areas

📊 **Economics and Management**

🧮 **Mathematics, Statistics, and Quantitative Methods**

⚖️ **Law and Legal Studies**

💻 **Computer Science and Information Technology**

🧠 **Psychology and Cognitive Sciences**

🌍 **European and International Studies**

🏗️ **Engineering and Applied Sciences**

🏛️ **Business, Marketing, and Administration**

🧬 **Research and Doctoral Studies**

🧩 **Interdisciplinary and Supportive Skills**

Area "Economics and Management"
List of Modules

Code	Module
ECO01	Organizational Dynamics and Behaviour
ECO02	Economics
ECO03	Monetary Economics
ECO04	Public Economics
ECO05	Corporate Finance
ECO06	Risk Management
ECO07	International Financial Management
ECO08	Financial Accounting
ECO09	Management Accounting
ECO10	Business Management
ECO11	Business Economics
ECO12	Economics for Engineering
ECO13	Globalization and Economic Policy
ECO14	Research in Finance
ECO15	Research in Business Administration and Strategy
ECO16	Research in Organizational Dynamics

Area "Law and Legal Studies"
List of Modules

Code	Module
LAW01	Introduction to Law
LAW02	Business Law
LAW03	International Contract Law
LAW04	Digital Law in the Fashion System
LAW05	Law in Act for the Fashion System
LAW06	Intellectual Property in the Fashion System
LAW07	International Law and Digital Solutions for the Fashion System
LAW08	European Funding and Europlanning

Area "Mathematics, Statistics, and Quantitative Methods"
List of Modules

Code	Module
MATH01	Mathematics
MATH02	Financial Mathematics
MATH03	Statistics and Business Statistics
MATH04	Advanced Mathematical Methods
MATH05	Probability and Statistics
MATH06	Psychometrics and Data Analysis
MATH07	Research in Business Statistics
MATH08	Data Science

Area "Computer Science and Information Technology" List of Modules

Code	Module
COMP01	Programming
COMP02	Algorithms and Data Structures
COMP03	Information Systems and Databases
COMP04	Software Engineering and Object-Oriented Programming
COMP05	Operating Systems
COMP06	Computer Architecture and Digital System Design
COMP07	Computer Networks
COMP08	Communication Technologies
COMP09	ICT for the Network Organization
COMP10	Advanced Web Technologies
COMP11	Big Data and Database Management
COMP12	Blockchain
COMP12	Digital Technologies for Business

Area "Psychology and Cognitive Sciences"
List of Modules

Code	Module
PSY01	Cognitive Psychology
PSY02	Developmental Psychology
PSY03	Psychology of Personality
PSY04	Work Psychology
PSY05	Community Psychology
PSY06	Psychobiology of Human Behavior
PSY07	Neuronal Biology and Physiology
PSY08	Dynamic Psychology
PSY09	Developmental Psychopathology
PSY10	Principles of Cognitive Neuroscience
PSY11	Neuroscience and Psychobiology
PSY12	Social Psychology of Web-Based Relationships
PSY13	Psychology of Training, Orientation and Organization
PSY14	Methods of Intervention in Groups and Organisations

Area "European and International Studies"
List of Modules

Code	Module
EUS01	European History and Culture
EUS02	History, Institutions and Protagonists of the European Union
EUS03	Foreign Policy of the European Union and Global Context
EUS04	The Global Trade Policy of the European Union
EUS05	The Economics of European Integration and Sustainable Development
EUS06	European Citizenship and Fundamental Rights in the Digital Age

Area "Engineering and Applied Sciences" List of Modules

Code	Module
ENG01	Calculus 1
ENG02	Physics
ENG03	Chemistry and Material Sciences
ENG04	Mathematical Methods
ENG05	Basic Circuit Theory
ENG06	Electronics and Electronic Measurements
ENG07	Control System Analysis and Design
ENG08	Fundaments of Electrical Engineering
ENG09	Energy and Heat Transfer Engineering
ENG10	Structural Mechanics
ENG11	Industrial Plants
ENG12	Quality Management

Area "Business, Marketing, and Administration" List of Modules

Code	Module
BUS01	Introduction to Business Administration
BUS02	Marketing
BUS03	Marketing, E-business, E-commerce
BUS04	Project Management
BUS05	Logistics and Product Support
BUS06	Innovative Financing Tools
BUS07	Business Case Studies

Area "Research and Doctoral Studies"
List of Modules

Code	Module
RES01	Introduction to Doctoral Studies
RES02	Research Methods

Area "Interdisciplinary and Supportive Skills"
List of Modules

Code	Module
ISK01	Information Management
ISK02	Elements of Computer Science
ISK03	Education and New Media
