وزير التعليم العالي وسفير إيطاليا يشهدان تخرج أول دفعة لمصريين في «الدراسة عن بعد» من جامعة إيطالية

الأحد 7 أكتوبر 2012 - 4:05 م | يسري محمد مجتمع وناس

Tomorrow on Monday, the Minister of higher education in Egypt Dr. Prof. Mustafa El-Sayed Mosaad and the Italian ambassador in Egypt Claudio Pacifico, will attend the graduation ceremony of the bachelor's degrees in communications and information technology awarded by the Italian university for distance learning "Uninettuno" for the egyptian graduates.

In a statement from the Italian embassy in Cairo that the ceremony will be held at Helwan University and in the presence of the rector of the Uninettuno University Dr. Prof. Maria Amata Garito. The institutions of both countries attaches great importance to this event at both levels the cultural or political, this is the first time that they give to the students certificates, recognized in Italy, Europe and Egypt, thanks to the International University Uninettuno which is the only university in the world that have signed agreement with the Egyptian government, whereby the recognition of the graduation certificates is done, which is obtained through distance learning via the Internet and television.

The statement of the Italian embassy added that, the minister of the higher education Dr. Prof. Mustafa El-sayed Mosaad heads the graduation ceremony, and he is also in charge of education policies for Freedom and Justice Party. The minister of the higher education had decided to attend the graduation ceremony after evaluating the positive results achieved by the joint cooperation program between Helwan University and Uninettuno international university.

The statement said that the students study in their country, without moving from their country, through the form of distance learning of the educational portal www.uninettunouniversity.net, which is only gateway in the world who achieved the teaching and learning through 6 languages: Italian, Arabic, English, French, Greek and Polish. Moreover, these students were granted the opportunity to do a training period in Italy in a number of Italian companies specialized in communications and information technology, and to continue joint cooperation relations even after their return to Egypt.

The statement noted that the number of Egyptian students currently enrolled is 200 students, 53 of them graduated in the last year, of whom 75% almost had already entered in the field of work for European companies in Cairo and In Egyptian companies operating in technological innovation, and 9% of them decided to continue studies in the united states, and 13% still performing the military service.

Dr.Prof. Maria Amata Garito, the rector of Uninettuno University says that our model is a real birth for the common network of knowledge to cooperate with Egypt is undoubtedly a successful model gives a lot of hope and provides for the arabian youth the opportunity to gain skills to enable them to enter into the field of work not only local but the european as well.
